

VINÍCIUS VALLE BERALDO

Full-Stack Developer

Skills

VINÍCIUS VALLE BERALDO

Brazil · Open to International & Remote Opportunities
Fluent in English · Portuguese

vvberaldo@proton.me

Full-stack developer with professional experience building and maintaining web applications, APIs, databases, infrastructure, and software connected to hardware systems.

Experienced with JavaScript, CSS, PHP, C/C++, MySQL, Linux, Nginx, Docker, and Grafana. Currently expanding my knowledge on Artificial Intelligence, while exploring modern backend technologies and system architecture.

I have experience leading development teams, making technical decisions, designing solutions, and turning requirements into practical software. I enjoy working across different layers of a system, from user interfaces and APIs to databases, servers, networking, and low-level programming.

Experience

7 DigitalTec / Senior Programmer / CTO

2021-2026 - PRESENT, BRAZIL

- Designed, developed, and maintained APIs and databases for environmental monitoring systems.
- Developed applications for collecting, processing, and presenting data from sensors deployed in poultry facilities..
- Developed and maintained web applications and interfaces for monitoring and managing operational data.
- Designed and maintained application infrastructure using Docker, Nginx, Grafana, and related tools.
- Configured Nginx reverse proxies, redirects, load balancing, and server environments.
- Worked with security, scalability, deployment, and system maintenance.
- Developed software integrating ESP32-based hardware, sensors, and communication systems.
- Led development efforts and supported other developers with complex technical tasks.
- Participated in technical decision-making and architecture discussions.
- Worked with large environmental datasets and explored Artificial Intelligence and machine learning approaches for data analysis and prediction.

Education

CEEP – Centro Estadual de Educação Profissional / Degree
2015-2019

Four-year technical program in Information Technology.
